- Passport : Available

### About Me

As a recent full stack graduate, I have knowledge of HTML, CSS, JavaScript, Node.js, React, MySQL and Spring Boot. I'm a quick learner, dedicated to delivering high-quality work and excited to join a dynamic team.

### Academic Project

- **Title :** Enjoy Eat
- **Technologies used :** Spring Boot, MySQL, React
- **Description :**

The aim of project is to develop a platform that enables customers to order food from their favorite restaurants and get it delivered to their doorstep.

The website is built using modern technologies such as Spring Boot, MySQL and React which ensures a smooth and seamless experience for the users.

For customers, the website provides a convenient and hassle-free way to order food online. They can browse through a list of restaurants, view the menu and place their order with just a few clicks.

For restaurant owners, the website provides a platform to reach a wider audience and increase their sales. They can create their own profiles on the website, list their menu and receive orders from customers.

### Certifications

- Completed Certification Course of **Soft Skills** offered by **IITBombayX**.
- Completed Certification Course of **Workplace Communication** offered by **IITBombayX**.
- Completed the **Basics of Java** guided path on Codestudio powered by **Coding Ninjas**.

### Interests

- Passionate about cooking
